Agenda

- First Roll Call – Patti Irgens – ITS
- Project Overview – Chris Smith – DOM
- Procurement Guidelines – Patti Irgens – ITS
- Questions/Answers – All
- Wrap-up and Next Steps – Patti Irgens – ITS
- Final Roll Call – Patti Irgens – ITS

Project Overview

The Mississippi Division of Medicaid (DOM) will build a modern and flexible interoperability platform for bi-directional exchange of clinical and administrative data between DOM systems and and external trading partners and stakeholders. The Interoperability Platform will be an SOA-based platform comprised of an Enterprise Service Bus (ESB) with integrated support for Healtheway's eHealth Exchange.

Project Overview

The Interoperability Platform will provide an external connection that will use interoperability standards including the Healtheway eHealth Exchange, RESTful web services, HL7 and C-CDA. These standards will facilitate DOM's interoperability with Mississippi Health Information Exchange (MS-HIN), other Mississippi stakeholders as well as state and federal agencies.
