---

Regarding Information Technology Services (ITS) Sole Source Certification Number 4482 to provide a behavioral health electronic monitoring system and equipment for the East Mississippi State Hospital (EMSH), please be advised that no objections were received before the original August 23, 2022 deadline. Due to contract negotiations taking longer than anticipated, the expiration date of this Certification has been extended to allow EMSH to obtain two full years of service. Pending successful contract negotiations, the award will now be made to InvisAlert Solutions, Inc., through March 28, 2026, in an amount not to exceed \$213,095.00.

Please be advised that ITS will determine if additional licenses, enhancements, upgrades, support, training, or equipment are within scope during the certification period and may increase the spending authority accordingly. Should InvisAlert Solutions, Inc. change their name during this certification period, then ITS will determine if a recertification is necessary.
