---

Regarding Information Technology Services (ITS) Sole Source Certification Number 4692 to provide direct servicing software maintenance and support for the Mississippi Development Authority (MDA), please be advised that an objection was received by American Technology Consulting. The objection was considered, but ITS determined that it was for a replacement software, and MDA has made a business decision to retain the existing software. The primary factors considered in this decision include the timeline and the urgency of completing this project by the current support end date of June 30, 2025. Should MDA need to replace any software products related to this Sole Source, an open and competitive procurement will be conducted.

Additionally, in regard to this Project, please be advised that ITS intends to award The Mitas Group, Inc. as the sole source provider of the MITAS Software through June 30, 2026, in an amount not-to-exceed \$26,421.56. If MDA opts to renew the direct servicing software maintenance and support, this sole source certification shall be valid until June 30, 2028. Should The Mitas Group, Inc. change their name during this certification period, then ITS will determine if a recertification is necessary.
