Regarding Information Technology Services (ITS) Sole Source Certification Number 4716 to provide universal product code (UPC) management software for the Mississippi State Department of Health (MSDH), please be advised that no objections were received before the original August 19, 2025 deadline. Due to extenuating circumstances caused by the federal government shut down, the expiration date of this sole source certification has been extended to allow MSDH to obtain three full years of service. The award will now be made to GCOM Software LLC (GCOM) dba Voyatek, through March 30, 2029, in an amount not to exceed \$148,320.00.

Please be advised that ITS will determine if additional products or services are within scope during the certification period and may increase the spending authority accordingly. Should GCOM Software LLC (GCOM) dba Voyatek change their name during this certification period, then ITS will determine if a recertification is necessary.
